District 2 4-H and FFA Quality Counts Training

An educational program focused on livestock projects,
character development and quality assurance.

District 2 4H and FFA Quality Counts Beef, Lamb, Goat & Swine training is intended to provide an educational opportunity for new or experienced families (4-H and FFA) participating in a livestock project. The main purpose is to teach the basic principles of livestock management as they relate to facility maintenance, selection, nutrition, animal health, handling, showmanship and transportation.

“Quality Assurance” programs are discussed to ensure the safe and legal use of drugs or medications to facilitate the ethical care, development and exhibition of livestock.

Parents and leaders are encouraged to remember that livestock projects (regardless of specie) are to be used as tools in the process of youth development. These youth are learning skills that will impact their entire life and ultimately everyone around them.

Objectives

- Explain the importance of stock show rules and guidelines.
- Identify the six pillars of character and apply them to livestock projects.
- Explain why quality assurance is important in livestock production.
- Describe facilities and equipment, selection, nutrition, health, management and feeding, fitting and showmanship for various species.
- Identify and describe 4-H livestock project opportunities.
- Identify resources

District 2 4H/FFA Quality Counts Training

December 13, 2008

Location: Texas A&M Research and Extension Center, Lubbock
